

Doerrenberg

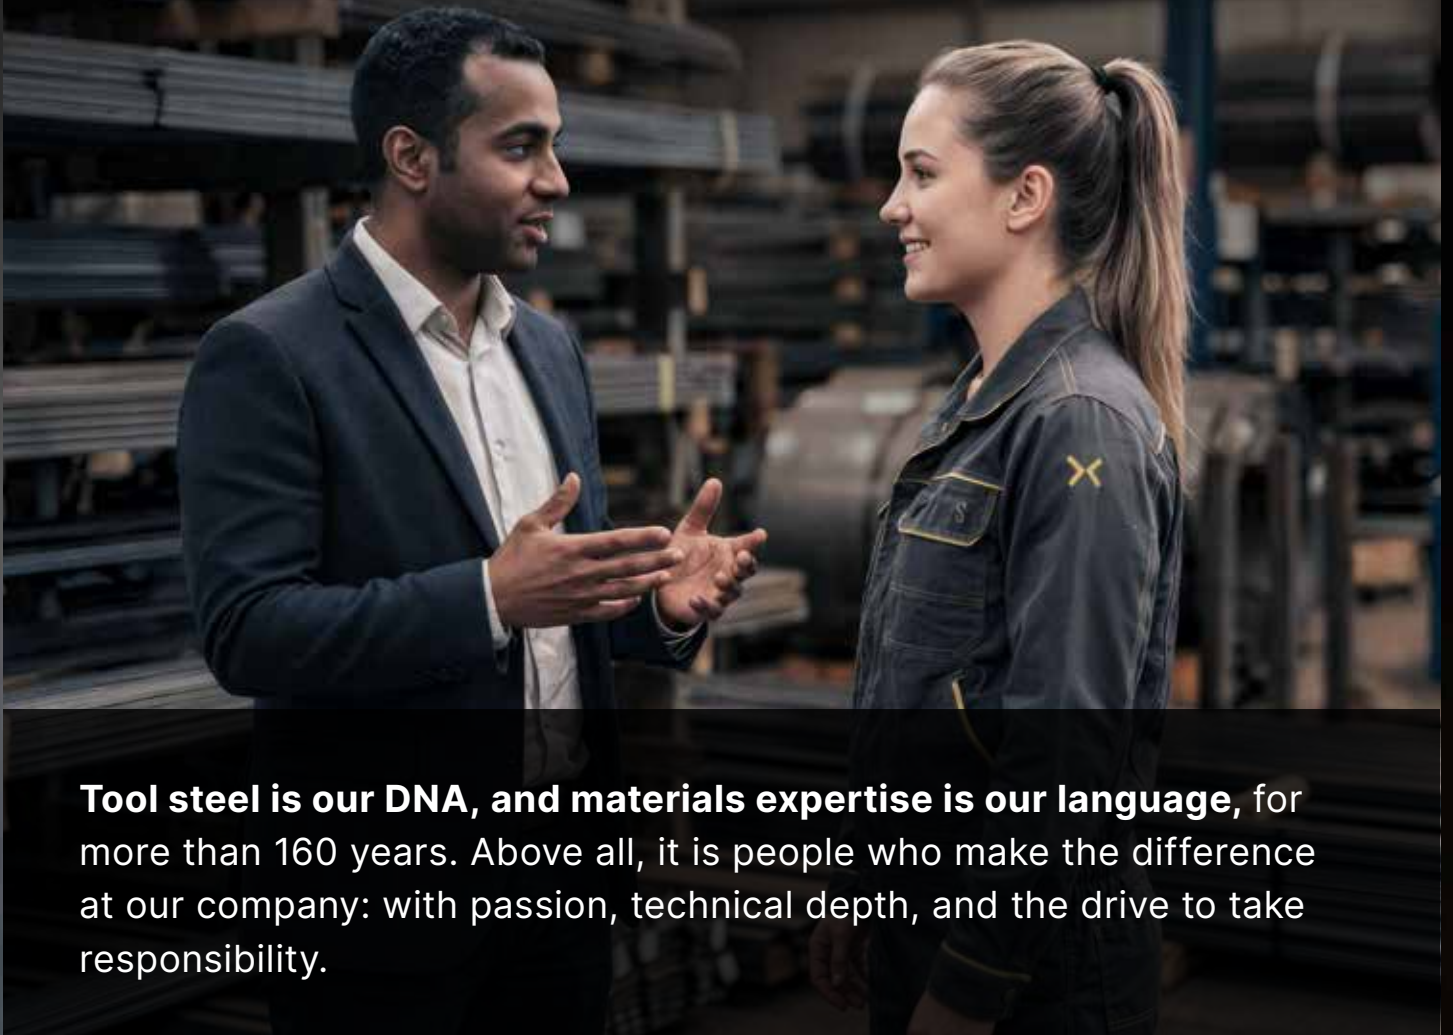

PART OF THE **GESCO** GROUP

Tailored Materials. **Made for people.** Developed with passion.

People, expertise, and responsibility – that is what defines Doerrenberg.

Tool steel is our DNA, and materials expertise is our language, for more than 160 years. Above all, it is people who make the difference at our company: with passion, technical depth, and the drive to take responsibility.

Passion for materials and applications

A clear standard: taking responsibility sustainably – not just executing standards, but delivering customer-specific solutions

Responsibility for the environment and quality

Sustainable business practices and certified quality processes (TISAX®, EcoVadis Bronze, DIN EN ISO 50001, ISO 14001, ISO 9001, Pressure Equipment Directive 2014/68/EU, DIN EN ISO 3834-2, and others) are standard for us.

Collaboration that noticeably eases the workload and creates added value

Competitive strength through partnership.

We create an advantage by bringing together flexibility, excellence, and availability.

Requirements are becoming more specific – solutions must become more precise.

Continuous innovation in material applications and processing methods.

Time, availability, and reliability determine project success.

Flexibility is essential for adapting more quickly to changing requirements.

All capabilities. One partner.

This is Doerrenberg.

More than material:

We bring together all capabilities – from planning to delivery.
The result is a comprehensive solution for seamless and reliable processes.

Services:

Our materials at a glance:

Cold-work steel | hot-work steel | high-speed steel
Specialty materials | powder-metallurgical steel | plastic mold steel
Nitriding steel | stainless steel | precision flat steel

Technical consulting:

Material selection | process optimization | failure analysis

Machining:

Sawing (more than 100 saws, dimensions up to 2,000 mm x 1,600 mm)
six-sided machining / milling | grinding | 2D/3D machining

Heat treatment & coating:

Vacuum hardening | plasma nitriding | PVD coating | CVD coating
PVD hybrid coating | induction hardening

Digital solutions:

EDI interfaces | inventory planning | webshop

Inventory capacity & availability:

Extensive inventory capacity of more than 30,000 metric tons
Reliable availability | fast delivery times

**From need to result,
in three clear steps.**

Understand. Decide. Execute.

Every project is different. Our approach is not. Three steps ensure that you receive exactly the material you need – on schedule and with reliable process stability.

01.

**Understand requirements,
application and objectives.**

02.

**Reliably substantiate material
selection and services.**

03.

**Coordinate implementation
efficiently and reliably.**

One Team, One Sales.

Collaboration in practice.

One Team, One Sales is not just a motto for us, but a working practice: We act quickly and pull together – organized in regional teams and connected through **global centers of excellence**.

How we combine global partnership with materials expertise.

We follow our customers worldwide: When you open a new production site, we make sure you receive the level of support you are used to there as well – through our existing locations or through local partnerships.

Locations:

Germany:

- Engelskirchen (Headquarters)
- Gummersbach-Dieringhausen
- Wiehl
- Herford

International:

- Macedonia, Ohio (USA)
- San Sebastián (Spain)
- Gebze (Turkey)
- Singapore
- Jiashan (China)
- Tainan (Taiwan)
- Seoul (Korea)

Part of the GESCO Group – A foundation you can rely on.

Doerrenberg is part of publicly listed GESCO SE – a leading industrial group with more than 30 market- and technology-leading companies in the capital goods industry, focused on Materials Refinement & Distribution, Lifescience & Healthcare, and Industrial Assets & Infrastructure.

What this means for you:

Financial stability

Long-term partnership

Access to a network of specialists

Financial strength. Long-term stability.
Reliable partnership.
